Career and Technical Education (CTE) Online Courses

Fall Semester Online Courses are offered as Undergraduate and Graduate/Professional Development credit.

BVED 431/700 History, Philosophy and Practices of Career and Technical Education (3 Credits)

Catalog Description: A study of the history, growth, theory, and present status of career and technical education in secondary and post-secondary schools. The course focuses on principles, practices, and major issues of career and technical education and its relationship to individual career and technical service areas. This course will cover relationships between general education and career and technical education.

BVED 432/700 Coordinating Cooperative Education Learning (2 Credits)

Catalog Description: A study of the principles and techniques used in coordinating cooperative work experiences for students in Career and Technical Education. Included is a study of labor laws, public relations programs, advisory committees, and organization and supervision of on-the-job training, evaluation, and follow-up of student learners.

You may register for BVED 431/700 or 432/700 online at www.vcsu.edu. To view a help document for information about online registration please click on “Campus Connection Help” from the “How May We Help You” menu. Now click on the “ConnectND Help Document”.

Please contact Leslie Lees, Administrative Assistant, Registrar’s office at 1-800-532-8641 ext. 37295 for registration questions or to register by phone. You may also email Leslie Lees at leslie.lees@vcsu.edu.

For additional information please contact David Melgaard at 1-800-532-8641 ext. 37721 or email at david.melgaard@vcsu.edu.
