WEBINAR: Case Management Services

Learn how case management/care coordination services can support independence

JAN. 27, 2022, 12:00 – 12:30 P.M. CST

Case managers can help individuals with physical disabilities and functional limitations understand their care options, access desired services such as Medicaid waiver and other in-home and community-based services and connect with community resources and qualified service providers.

During the webinar, presenters will provide an overview and explain the types of case management and care coordination services offered through the Adult and Aging Services Division. Attendees will also learn how to access information about services and supports in North Dakota.

Older adults, family members and community entities that offer services supporting individuals are encouraged to join us to learn more. **Click to [join the webinar online](#) or join by phone at 701-328-0950, Conference ID 676 451 010#.**
